

PATLOLLA YASHWANTH REDDY

Hyderabad | Ph: +91 81431 08978 | patlollayashwanthreddy1910@gmail.com | [Linkedin](#)

PROFESSIONAL SUMMARY

Computer Science Engineering student with strong analytical and problem-solving skills, backed by 2.5+ years of experience in forex and futures trading. Experienced in analyzing market trends, interpreting datasets, tracking performance metrics, and building automation tools using Python and SQL. Skilled in Excel, data analysis, trading strategy evaluation, and generating insights from real-time market data. Passionate about transforming raw data into meaningful insights and business decisions.

TECHNICAL SKILLS

Programming Languages: Python, Java, C, JavaScript, SQL

DATABASE & Development: FastAPI, Flask, REST APIs, SQLAlchemy ORM, PHP, HTML5, CSS3 , MySQL,BQL(ongoing)

AI/ML & Data Science: TensorFlow, OpenCV, MTCNN, NLP, Computer Vision, pandas, TA-Lib, Data Cleaning

Trading Technologies: Technical Analysis, Risk Management, Backtesting, Market Trend Analysis,

Tools & Platforms: Git, Google Cloud APIs, Bloomberg Terminal, SMTP, Tableau, Google Sheets, MT5 , Trading view

Analytics Skills

Data Analysis, Trend Identification, Reporting, Market Analysis, Backtesting, Risk Management, Technical Analysis, Performance Tracking

PROJECT EXPERIENCE

VisionID - AI-Powered Identity Recognition System (In Progress, April 2025)

- Processed and analyzed bulk student datasets using Excel, image data, and Python automation workflows.
- Integrated OpenCV and MTCNN for automated face detection workflows.
- Generated structured datasets and automated reporting workflows using MySQL and pandas.
- Optimized image-processing pipeline capable of handling 1,000+ images.

Quantitative Market Strategy System (MT5) (In Progress, Feb 2025)

- Analyzed historical forex market datasets using RSI, Bollinger Bands, and volatility indicators.
- Implemented session-based filters for New York, London, and Tokyo market sessions.
- Created data-driven trading insights by identifying trends, anomalies, and risk patterns.
- Conducted backtesting across multiple timeframes.

RSI-Based Forex Trading Alerts System

- Analyzed & Engineered a systematized RSI-based trading alert system for market signal detection.
- Integrated real-time email notifications using SMTP.
- Backtested across 15+ currency pairs achieving approximately 75% signal accuracy.

Full-Stack E-Commerce Platform

- Enhanced a complete e-commerce platform with admin and customer modules.
- Implemented product CRUD operations, authentication, shopping cart, and transaction management.
- Designed scalable architecture supporting 500+ users.

Certifications

- **Bloomberg Finance Fundamentals Course**
- **Bloomberg Query Language (BQL) – Ongoing**

EDUCATION

Bachelor of Technology in Computer Science & Engineering | GITAM University, Hyderabad | June 2023-2027
GPA: 7.5/10 | Semester GPA: 8.5/10
